

## Terminology (continued)

### Hyperlinks (aka Links)

Shortcuts to another web page through clicking on them with a mouse.

#### Types of Links

**Hyperlink**—*generally* underlined and/or a different color than the surrounding text.

**Button**— a graphic element

**Dropdown menu**— a list of options

### Browser

A software program that allows you to access the internet.

#### Browser Programs

Internet Explorer (MS), Safari (Mac), Firefox/Mozilla, Chrome, Opera

#### Parts of a Browser

Title Bar 

Minimize  Restore 

Close 

Address Bar - where you see the URL

Menu Bar 

Refresh  Stop 

Back & Forward 

Home 

Scroll Bar - at the side of the page

Status Bar - at the bottom of the page

### Search Engine

A website that indexes billions of page and sites on the world wide web.

#### Examples

	Google	the largest
	Yahoo!	a directory
	Altavista	great for images
	Bing	Microsoft product
	Dogpile	a metasearch engine

## How to Search

### Search Box

Easy to use but returns LOTS of results!

### Using AND, OR and NOT

A way of combining words to make your search more specific.

#### AND +

+ will *narrow* by specifying that *ALL* words must be present in the search results.

France +travel

#### OR

OR will *broaden* by specifying that *EITHER* word must be present.

France OR travel

#### NOT -

- will *narrow* by specifying that *ONE* word must be *excluded* in the results.

France -travel

### Quotation Marks “ ”

Creates a phrase search with the exact words in the exact order.

### Advanced Search

Google, Altavista, Dogpile and other true search engines allow you to use parameters to help adjust your search.

## Evaluating Websites

### Accuracy

Who wrote or authored the page?

Can you contact them?

Is the information reliable at first glance?

Is the page free from typographical errors?

### Authority

What credentials or qualifications are listed for the author(s)?

What institution publishes or who sponsors the site? Check the domain type

Is there a link to information about the author or sponsor?

### Objectivity

What is the goal or objective of the page?

How detailed is the information?

Does the information try to sway opinion?

Is there any advertising on the page?

### Currency

When was the site created?

When was the site last updated?

Are the links current?

Are any of the links dead or broken?

### Coverage

What is the intrinsic value of the information?

Is the material in-depth?

Is the information provided cited?

Is the information free?

Do the links complement the site's theme?

## Terminology

### Internet

A global collection of computer networks linked by telephone, cable, satellites and wireless connections.

#### Uses

- Communicating
- Shopping
- Paying bills
- Finding news and information

#### Unavailable (for free)

- Most full-text articles
- Copyrighted information

### World Wide Web

A service that enables websites and pages to be available over the internet.

### Web page

A single document of page on the world wide web.

### Website

A group of related web pages with a common URL or address.

### URL (Uniform Resource Locator)
