

The Libby App

Step 1: Getting Started

- ◆ Go to the Apple Store or the Google Play store, search for **Libby by Overdrive**, and download the free app.
- ◆ Open the Libby app. Scroll down to the bottom of the page and tap on **Find My Library**.
- ◆ If **Deerfield Public Library** shows up hit **Yes**. Otherwise tap on **No** and you'll be prompted to search for your library by name or zip code.
- ◆ Tap on **This Is My Library**.
- ◆ Tap on the link "**add it now**" to put in your DPL card number.
- ◆ Select Deerfield Public Library from the list of libraries, put in your library **card number**, and tap on the **Sign In** button.
- ◆ After entering your library card number, the Libby app will **save it** and your account information. The next time you log in you will be automatically connected to your account. You will **NOT** need to log in each time you use the app.

Step 2: Selecting a Title

- ◆ Scroll through the categories and **select an eBook or eAudiobook**.
- ◆ If the book is available tap on **Borrow**. Otherwise you can tap on Place on **Hold** and receive an email when it's available.
- ◆ Tap on the red **Borrow!** Box at the bottom of the page. Your book should now start to download.
- ◆ You will have the options to **Open your book**, Keep Browsing, or Go to Shelf.
- ◆ After you open an eAudioBook you should see this **menu** at the **bottom** of the screen. Tapping in the middle of the screen will bring up this menu in an eBook.

- ◆ Tapping on the **middle circle** will take you to the latest book you were reading or listening to. Tapping on **Library** will take you back to the main page to search for new books. Tapping on **Shelf** will take you to your bookshelf and all of the books you currently have checked out.

KINDLE Fire Users:

Tap on any **eBook** in your Overdrive Bookshelf on your computer. Tap on **Send to Device**. Tap on **Choose Your Device** and choose **Kindle**. Scroll down and tap on the red **Send to Kindle!** Box. An **Amazon** page should now open. Tap on **Get Library Book** to send to your Kindle.
